## About VAMNICOM

VAMNICOM conceived as an intellectual nerve center for the cooperative movement, has been functioning as an Apex Management Training Institute for over 50 years, and catering to the management development through training, education, research and consultancy needs of various co-operative organizations, government departments and other national bodies. VAMNICOM is to facilitate building cadres of professional managers to man key positions in the ever growing number of cooperatives through management development, training, education, research and consultancy.

## About Conference

The conference aims at bringing together internationally renowned researchers with insights on new approaches in the governance and management of the cooperative sector by drawing influence from innovative technologies, economic, social and environmental sustainability and sustainable development. Amidst the drafting of New Cooperative Policy, the conference will provide a platform for sharing knowledge and experience among cooperative departmental officers and stakeholders, researchers from local and regional training institutes, universities and research centers, policy makers, cooperatives, business enterprises, practitioners, NGOs, research scholars, students, etc.

## Objectives

- To develop a framework for governance, leadership and management of cooperatives.
- To provide a platform for research endeavor for cooperative sector.

## Conference Themes
